

Flying Hire Ltd will comply with all current legislation laws, codes of practice, guidelines affecting the operations of the business.

At Flying Hire LTD we take our environmental responsibilities seriously and strive to minimise the impact of our activities, including those of our subcontractors and suppliers. We also commit to pollution prevention and protection of the environment; identifying, monitoring and managing environmentally significant activities and considering the life cycle impacts of our supply chain.

The directors of Flying Hire LTD recognise the need to minimise our impacts, and we are committed to enhancing relationships with local communities and charitable organisations.

As part of our commitment to environmental leadership within the events industry, Flying Hire LTD will aim to:

- Comply with all relevant environmental legislation.
- Integrate the consideration of environmental concerns and impacts into our decision making and activities,
- Minimise our waste and then reuse or recycle as much of it as is possible.
- Minimise energy and water use within our buildings and processes in order to conserve supplies and minimise the consumption of natural resources.
- As far as is possible, purchase products and services that do the least damage to the environment.
- Train, educate and inform our employees about environmental issues that may affect their work,
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- communicate our environmental commitment to clients, customers and the public and encourage them to support it
- Where required by legislation or where significant health, safety or environmental hazards exist, develop and maintain appropriate emergency and spill response programmes,
- Reduce the use of energy, raw materials and waste production whilst increasing biodiversity where opportunities exist, throughout our activities.
- Seek accreditation of ISO 14001:2004 by 2019
- Continually improve our performance, by setting progressive environmental objectives and targets.
